Shreya Sil

Software Engineer | Backend & Full-Stack | Python, Java, Spring Boot | AI-Enabled Automation

Am Karlsbad 10, 10785 Berlin, Germany (relocating from Bangalore, India on 13 Dec 2026)

+49 155 110 32837 | shreyas.sil4@gmail.com | linkedin.com/in/shreya-sil | shreyasil.github.io

Work authorisation: Employment permitted in Germany (family-reunification visa) | No visa sponsorship required

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience in backend engineering, full-stack development and engineering automation at Dell Technologies and Cognizant. Builds backend services, RESTful APIs and automation workflows in Python and Java, with hands-on experience in Spring Boot, microservices, TypeScript and React. Develops AI/GenAI agents, LLM-based developer tools and AI-driven analytics for issue triage, developer workflows and engineering decision-making. Holds an M.Tech in Computer Science from IIIT-Delhi.

TECHNICAL SKILLS

Programming Languages: Java, Python, TypeScript, JavaScript, SQL

Backend Engineering: Spring Boot, Spring Framework, REST APIs, Microservices

Frontend Engineering: React, Redux, HTML, CSS, Webpack, Micro-frontends

AI / Generative AI: Generative AI (GenAI), AI Agents, LLM-assisted Development, Prompt Engineering, AI-powered Automation, AI-driven Analytics

Cloud, DevOps & CI/CD: Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD (Continuous Integration/Continuous Delivery)

Databases: MySQL, PostgreSQL

Engineering Practices: System Design, Distributed Systems, Object-Oriented Programming (OOP), Data Structures and Algorithms, Agile/Scrum

Tools: Git, Jira, GitHub Copilot, ChatGPT, Windsurf

PROFESSIONAL EXPERIENCE

Software Engineer II

Jul 2023 – Present

Dell Technologies | Bangalore, India

- Designed and developed Python backend automation for repetitive server-management and operational workflows on Dell's Atlas framework.
- Developed AI/GenAI issue-classification agents that distinguish automation-script failures from manual or user errors, and designed the workflow that supports routing each issue to the appropriate automation JIT or product JIT process.
- Built an AI-driven sprint analytics dashboard on historical sprint data, surfacing progress, spillover risks and engineer-utilisation patterns to support data-informed sprint planning and resource optimisation.
- Contributed to AI and machine learning (AI/ML) solutions for Dell server platforms, including performance optimisation, hardware-software integration and production readiness.
- Investigated and managed software defects in Jira, collaborating with cross-functional Agile teams to support issue resolution and delivery.
- Used GitHub Copilot, ChatGPT and Windsurf for AI-assisted code generation, debugging, refactoring and documentation.

Software Engineering Intern

Jan 2023 – Jul 2023

Dell Technologies | Bangalore, India

- Developed end-to-end Python automation workflows for Dell server validation processes.
- Collaborated with senior engineers to create reusable validation scripts across multiple server product lines.
- Analysed system performance metrics, resolved integration issues in pre-production environments and documented workflows for knowledge transfer.

Programmer Analyst **Jun 2019 – Jul 2021**

Cognizant Technology Solutions | **Pune, India**

- Developed backend services in Java and Spring Boot, implementing RESTful APIs for microservices-based applications.
- Designed and optimised MySQL database schemas, improving query performance by 30% through indexing and normalisation.
- Delivered client-specific application features in line with functional and non-functional requirements.
- Partnered with frontend teams to integrate APIs and ensure reliable communication between client applications and backend services.

SELECTED AI / GENAI PROJECTS

CoreSense: AI Workload Profiling | **Dell ISG Hackathon**

- Developed a system that uses server power and thermal telemetry to profile AI workload behaviour patterns on Dell server platforms.

GenAI Developer Tools

- Created LLM-based tools for code explanation, log analysis and automated documentation generation.

EDUCATION

Master of Technology (M.Tech), Computer Science

Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) | **2021 – 2023**

Bachelor of Technology (B.Tech), Computer Science & Engineering

St. Thomas' College of Engineering & Technology | **2015 – 2019**

LANGUAGES

English: Fluent (C1/C2) | German: Elementary (A2) | Hindi: Native | Bengali: Native

VOLUNTEERING & INTERESTS

- Volunteer, Dell MOSAIC Employee Resource Group (ERG): creating educational crafts for schools.
- Interests: running, painting and badminton.
